We will hike along Highway #2 for about 100' to an obscure dirt road on the South side of the highway. This goes straight up the slope and intersects a dirt service road which leads to the ski lift. At the top we will turn west past the high point of the road and continue a half mile until it swings downhill. Then we follow the ridge to the summit.

From there we go east to and past the Waterman Summit to the Twin Peak turnoff which we ignore and return to the parking area on the trail.

* Saw a Bear crossing
the Road

went to wrong peak
at first & ate lunch
then realized mistake
& went to correct one.

Warm day, but not
too hot
